Thorough testing ensures that we comply with all standards

**A correct fire retardant window
can save lives**

Why choose us?

Consistency and solidity form the conceptual base of the family owned Danish company C.C. Jensen, established in 1953.

Originally the company was manufacturing lubricating oil filters for marine engines and in 1968 production of ship windows and sand casted heavy elements were added.

Any project or sale at C.C. Jensen are based upon an **assessment** of the customers needs in order to develop the **optimum**

solution and deliver the relevant products or components. **Ethical** business practice is essential in our customer relations. All customers are approached in a bona fide and **professional way**.

The CJC™ trademark stands for **reliable supply** all over the world - we aim to achieve that goal through an **efficient supply chain**, sales organisation and network.

You are welcome to **contact** us, if you **have questions about**

- Representatives
